Summary: Based off a dream I had. A ghost pony is killing and eating the fillies of Ponyville, and the Mane 6 need to stop it. They get help from two school-ponies who know their way around all of Ponyville and the secret tunnels below, Scribble Scratch and Marker Sketch. But what if the ghost kills them too?

## The Haunting of Savage Shadow

\*\*A/N: There will be 27 OCs in here. It's crazy but yeah. There's also gonna be a Zootopia reference. It may be too obvious but oh well...\*\*

"Nightmare Night! What a fright! Give me something sweet to bite!" a group of fillies chorused.

"Wow! What delightful little costumes!" Rarity admired. The unicorn grabbed a candy bowl with her magic and dropped two lollipops in each bag. As Rarity closed the door, the fillies walked into a dark wall. "Huh? That wasn't there before." one of the fillies said. Suddenly, a black figure trotted up. "\_Yes! A filly fillet!\_" Before the fillies could even scream, the figure sliced them up. Another group of fillies noticed the dead bodies and began to scream. Rarity burst out the door. "What happened? Why is everyone screaming?!" Then her gaze flicked to the bloody organs scattered on the ground.

"TWILIGHT! OH MY GOSH HELP ME TWILIGHT!" Rarity screamed. Twilight Sparkle poked her head out of her castle door. "Oh no. It's happening."

"What's happening Twilight?!" Rarity cried. "Anything that's happening to you is way less lethal than what's happening right now! I just saw some corpses of fillies right in front of my house!" Twilight shook her head. "That's exactly what I'm talking about! It's coming, Rarity. Make sure Sweetie Belle is safe." Twily warned. "Actually, in fact, bring her to the castle and she can eat all the candy she wants." Suddenly after Twily said that, the CMC burst

through the door and slammed it behind them. "Twilight! There was a creepy black shadow pony and it just sliced up and ate Diamond Tiara!" Apple Bloom cried. "Poor Diamond Tiara." Sweetie Belle sighed. "We only just got to know her good side..." Twilight's eyes widened and she went to call out the rest of the Mane 6. They all arrived and sat down, the CMC clinging to their sisters. "Girls. A living legend is killing the foals and fillies of Ponyville." Twilight explained. "It's name is... THE SAVAGE SHADOW. The Savage Shadow was a stallion living in the woods. He had all he needed until two fillies came into his domain and completely destroyed it. More fillies came and they turned his lush forest home into a barren wasteland. Savage Shadow was devastated and famished. He was so desperate that every Nightmare Night, he goes from forest to forest, neighborhood to neighborhood, and kills little innocent foals and feasts on their flesh and leaves the organs and other leftovers behind. Unfortunately, it's Ponyville's turn."

"O-M-Goodness." Pinkie Pie said. "That's the saddest story I've ever heard..." Twily paced back and forth. "We need to keep our pets inside as well. Sometimes Savage Shadow will go after pets too." Applejack pointed her hoof at Winona. "Actually Twi, we were kinda so scared that we brought our pets too." Fluttershy nodded. "I even brought Angel's girlfriend Judy."

"Rainbow Dash, I don't wanna be eaten by a savage pony..." Scootaloo whined.

"No worries, Scoots." Dash assured her. "I won't let that creeping shadow of a pony get you."

"We need to stop it before it feeds on any more innocent fillies' flesh." Twilight announced.
